On Page 2 of this report is a chart of the Communist-front organizations in French Morocco and in the Tangier International Zone. Succeeding pages list the officers of the different groups. The Communist domination of these organizations is evidenced by the membership in them of various Party leaders, and through the reiteration of the current Party line. These front organizations have faithfully supported the World Partisans of Peace movement. Those groups with Spanish origins have been less voluble but have, nevertheless, adhered to the line.
